AMERICAN PEOPLE

FOR THE YEAR 1888

# Town Warrant

---

## COMMONWEALTH OF MASSACHUSETTS

FRANKLIN, SS.

To either of the Constables of the Town of Sunderland, in  
the County of Franklin, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet at the Town Hall in said Town, on Monday, February the sixth at 10 o'clock in the forenoon, then and there to act on the following articles:—

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To choose all necessary town officers for the ensuing year.

ART. 3. To hear the annual report of the town officers and special committees and act thereon.

ART. 4. To appropriate such sums of money as may be necessary to defray town charges for the ensuing year, or to pay town debts and interest.

ART. 5. To determine the manner of repairing highways, townways and bridges, and appropriate any money therefor.

ART. 6. To see if the town will appropriate money for the transportation of scholars to the schools in town or high schools out of town.

ART. 7. To fix the time when taxes shall be paid and pass any vote in regard to interest.

ART. 8. To see if the town will authorize the treasurer to borrow money in anticipation of revenue, with the approval of the selectmen, for the use of the town, and give notes of the town therefor.

ART. 9. To appropriate money for salaries of the several town officers.

ART. 10. To see if the town will appropriate a sum of money for the support of the Public Library.

ART. 11. To see if the town will appropriate a sum of money for the opening of the town drains or take any action in regard to them.

ART. 12. To see if the town will appropriate a sum of money for the medical inspection of schools.

ART. 13. To see if the town will appropriate a sum of money to furnish street lights for the ensuing year.

ART. 14. To see if the town will appropriate \$150.00 to be paid to the Trustees for County Aid to Agriculture in accordance with provisions of Chapter 128, Section 45, General Laws and for the purpose of demonstration work under the direction of the agent of instruction of the trustees on land owned by the town or any residents thereof, or pass any vote or votes in relation thereto.

ART. 15. To see if the town will choose a director in accordance with the provisions of Chapter 128, Section 45, General Laws at this meeting, to serve for the term of one year.

ART. 16. To see if the town will appropriate a sum of money for the observance of Decoration Day.

ART. 17. To see if the town will appropriate the sum of \$300.00 for a school nurse in accordance with Chapter 357, Acts of 1921, or appropriate any sum in connection therewith.

ART. 18. To see if the town will take any action in regard to appropriating a sum of money for gypsy moth work.

ART. 19. To see what action the town will take in regard to snow removal, and see if the town will appropriate any money for the same.

ART. 20. To see if the town will appropriate a sum of money for bonding the town officers.

ART. 21. To see if the town will accept the provisions of section 26-29, Chapter 81, General Laws, in regard to the manner of caring for the roads.

ART. 22. To see if the town will appropriate a sum of money for repairing the roads under the provisions of Chapter 90, of the General Laws.

ART. 23. To see if the town will appropriate a sum of money for new fire hose.

ART. 24. To see if the town will appropriate a sum of money to repair damage done in the cemetery, by the recent flood.

ART. 25. To see if the town will appropriate a sum of money for work on the sewer.

And you are directed to serve this Warrant by posting up attested copies thereof at the Post Office, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with

your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands this 28th day of January in the year of our Lord one thousand nine hundred and twenty-eight.

P. F. WHITMORE,	}	Selectmen

## Road Report

---

January 10, 1928

To the Selectmen:—

The following road report for the year 1927 is somewhat shorter than usual because the town at its last annual meeting refused to appropriate enough money to earn an allowance from the state under Chapter 81. With farming conditions as they have been for the past few years very few would blame the voters for refusing to raise more money in the face of the present tax rate; but the fact remains nevertheless that with \$1500 to spend on the maintenance of the roads, instead of \$6800, they are not going to improve except possibly under the most favorable conditions of weather, etc.

With the addition of the Sargent plow that the town purchased in February, for use with the Fordson caterpillar tractor, we were able to handle any snow that the truck plow could not. Moreover we could push the snow back farther than the truck plow could and thus give a wider roadway for traffic and a better chance to handle the next storm. Snow storms during 1927 were not as severe, however, as have been experienced some winters.

Spring came unusually early and ordinary maintenance was begun about the middle of March. Outside of rather heavy repairs, caused by two torrential rains, about the only work done on the roads was to keep them passably safe for travel. These two unusual storms, one in July and one the very first of November, caused some bad washouts on the hill roads. I might say here that if people who cut off wood or lumber on

the mountain did not throw the brush into the first handy brook, less damage would be caused to the mountain roads. The middle mountain road, as a result of the November storm was made impassable due to this very reason. All damage resulting from these rains was repaired except a bad slip in the slope of the road just north of Standish Chard's barn. This did not interfere with the traveled part of the roadway, but should be fixed before it gets any worse.

Very little work was done on the macadam road in the meadow. The application of Tarine in the fall of 1926 produced the best wearing surface the road has ever had although it is more slippery than before. It will not be many years before this road will have to be built over due to the growing unevenness of the surface. Heavy loads should be kept off of it while the frost is leaving the ground or extensive repairs will be required at once.

The appropriation of \$4,000, from state, county and town under Chapter 90 was spent for the usual kind of construction of between 600 and 700 feet from the end of the macadam road in the street northerly past the home of R. A. Goodyear, and for another section of about 1300 feet on the southerly approach to Highland Point. Beginning on April 20 the money was practically all spent during the next month, after onion crops were in the ground and before weeding began. This money all went to local help, except about \$100, for drilling and dynamite, at a time when there was no other source of income for them. If money should be available in 1928 under this chapter it should be spent, in my opinion, to close the gap between the north end of this year's work and the south end of the next section—a matter of a few hundred feet—and then proceed northerly beyond the section built in 1926.

Although not obliged to keep the expense separate for each road this year, I have done so on the theory that the town would eventually appropriate money again under Chapter 81 and that when that time came it would be worth the trouble to have the records for each road complete from the time we first started to operate under this chapter.

The following table shows where the money was spent:

Name of Road	Amount spent
1. Bull Hill	\$ 67 83
2. Hubbard's Hill	00 00
3. Plain	40 24
4. Pound	108 16
5. River	33 35
6. Hungarian Avenue	80 91
7. Gribko Cross	11 95
8. Back	95 72
9. Upper Montague	225 59
10. North Sunderland	372 91
11. Gunn Cross	6 70
12. Whitmore Cross	12 25
13. Leverett-Montague	28 99
14. Reservation	3 00
15. Middle Lane	26 42
16. Cemetery	1 50
17. Meadow Street	67 29
18. Brown Cross	32 56
19. Tomoles Cross	00 00
20. Kulessa Cross	6 21
21. Burek Cross	3 00
22. Plain Branch	00 00
23. North Mountain	63 44
24. Middle Mountain	121 99
25. South Mountain	50 38
26. Clark Mountain	00 00
27. Gunn Mountain	00 00
28. Cross Mountain	10 50
	<hr/>
	\$1470 89

The following table shows who drew the money that makes up the labor item on the roads, including that spent under Chapter 90:

Name and Classification	Rate	Amount
Warner Bros., truck	\$2.50	\$1685 00
Warner Bros., tractor	2.25	292 50
Warner Bros., Reo truck	1.75	94 50
Warner Bros., Ford truck	1.50	116 25
Warner Bros., loader	1.00	203 50
Warner Bros., mixer	.30	4 20
Warner Bros., team	.80	202 00
T. L. Warner, superintendent	.75	254 25
R. W. Warner, foreman	.50	81 50
W. J. Ahearn, foreman	.45	140 40
Leo Walsh, laborer	.40	12 60
F. E. Ahearn, laborer	.40	1 80
H. Alger, laborer	.40	16 40
P. J. Hogan, laborer	.375	21 75

A. W. HUBBARD, Treasurer.

Having made a careful examination of the Treasurer's record of the cash received and disbursed during the past year, I believe the foregoing balance sheet to correctly set forth the financial condition of the Town of Sunderland as at December 31, 1927.

DAISY B. MONTAGUE, Auditor

January 20, 1928.

## Collector's Report

---

Town tax	\$36096 43
County tax	3045 11
State tax	2520 00
State Highway	397 10
Overlayings	219 29
Poll (only)	140 00
Interest	103 47
Omitted assessment	63 68
	<hr/> \$42585 08

Paid Town Treasurer	
Tax	\$42452 41
Interest	103 47
Abated taxes	29 20
	<hr/> \$42585 08

Respectfully submitted,

R. B. BROWN, Collector.

I have examined the warrants issued to the Tax Collector by the Assessors, have verified his account by a comparison with the Treasurer's cash book, and I believe the above statement to be correct.

DAISY B. MONTAGUE, Auditor.

January 19, 1928.

## Town Clerk's Report

---

	<hr/>	\$7990 89

A. W. HUBBARD, Treasurer.

---

I believe the foregoing statement sets forth correctly the financial condition of the Riverside Cemetery Association as at December 31, 1927.

DAISY B. MONTAGUE, Auditor.

January 17, 1928.

## **Report of Inspector of Animals and Slaughtering**

---

One general inspection of barns and animals was made during January at which time:

70 Stables were visited

361 Dairy Cattle inspected

153 Swine

1 Sheep.

Seven cows were condemned as tuberculous and killed.

We have inspected at time of slaughtering 2084 pork, 15 beef and 21 veal.

Two carcasses of pork were condemned as unfit for food, as well as a number of parts of animals.

Respectfully submitted,

M. H. WILLIAMS, Inspector.

K. S. WILLIAMS, Assistant Inspector.

## Forest Warden's Report

---

During the year 1927 there were four fires, that cost \$136.75 to extinguish. One of these was set by an engine of the C. V. Ry. and the town received \$126.50 from the railroad, the cost of extinguishing the fire.

25 fire permits were issued during the year.

We have purchased 14 new fire extinguishers during the year, and received a refund from the state of \$80.50, 1-2 the cost of this equipment.

The state has \$50 available for use in Sunderland for fire fighting equipment. I recommend we purchase more hose, as we have room for more on our reels. Whatever amount up to \$100 we spend, one-half will be refunded by the state.

Respectfully submitted,

A. C. WARNER, Forest Warden.

---

## Gypsy Moth

---

484 egg clusters were found and destroyed, which is about half the number that was found last year.

R. W. GRAVES, Superintendent.

## Library Report

---

## Report of Committee of Care of Town Park

---

The committee for the Town Park is very gratified to report that during 1927 public interest was so aroused in the park that as soon as weather permitted members of the Sunday School under the leadership of their Superintendent congregated in the park and constructed tables, cleaned up and burned debris, installed a water system, built a road and formed parking space.

Later the Grange built a number of swings. On the Fourth of July a public picnic was held at which Prof. Fred Cooley spoke.

The Garden section of the Woman's Club late in August, planted beds of Iris, Peony, and Phlox, forming a nucleus to a collection of flower beds should the experiment prove a success.

The Park Committee was advised that the planting of trees in previous years by the children of the 8th grade was so efficiently done that further planting of trees for the present is unnecessary.

The committee finds that the Sunday School, the Grange and the Woman's Club, the Dorcas society and Men's club have all contributed immeasurably towards making "Our Park" a place of beauty and joy to our community and may we ask of our fellow townspeople to sustain their interest in Sunderland's park this coming year.

Respectfully submitted,

LILLIAN DILL,  
AUGUSTUS F. GRAVES,  
GEORGE P. SMITH.

# School Report

---

JANUARY 1, 1927 TO DECEMBER 31, 1927

## SCHOOL COMMITTEE

# Report of the Superintendent of Schools

---

## TO THE SCHOOL COMMITTEE:

It is with some misgivings that one attempts to review a year's work and progress after but four months' connection with the school system. Yet that there has been progress and real achievement throughout the year should not be ignored. I found in the Sunderland schools a corps of faithful and efficient teachers, working under pleasant and agreeable surroundings and conditions. I am deeply indebted to them for their cooperation and loyalty.

Several changes in the teaching force occurred with the opening of the schools in September. Miss Dunn, Miss Drury, and Miss Lesure resigned at the close of school in June. Miss Jegelwicz and Miss Rosengren were appointed to the 5th and 6th grades respectively, and Mrs. Carolyne Allen succeeded Miss Dunn in the 7th grade.

The close of the term in June witnessed the graduation of a large class from the 8th grade. The number of pupils in the first grades is 10 less than last year. The census of October reported an increase of 6 in the number of children of school age in the town. Yet there is no appreciable difference in the total registration of the schools, nor is there any indication of any radical change in school population or in housing demands. I am quite convinced that, in view of the number of children who have had to repeat the 1st grade on account of language difficulties,

one of the first grades might well be organized as a preliminary, or even a kindergarten class. This would involve no additional teacher or classroom and, I believe, is a plan worthy of consideration.

Few innovations or changes in courses or textbooks have occurred. The policy of replenishing and taking care of such equipment as we have has been followed with the earnest cooperation of the teachers.

Health education has taken a special form in the 7th and 8th grades in the organization of these classes into Health Crusaders. The 7th grade acquired one National Banner, and the 8th grade won its second National Banner last year. The Crusade is again in force this year with increased interest. A modified plan of primary reading methods, begun last year, has been put in full operation with gratifying results. Reading is the major subject in primary instruction and the one found most difficult of mastery by a large part of our pupils. The revised method seeks to bring this subject into closer relation with the other activities of the primary classroom and to take advantage of these activities in motivating the child's interest. We should develop some form of practical arts work for the boys of the 7th and 8th grades. The girls are well-provided for in the Home Economics courses, but the teachers and superintendent are often sorely perplexed as to what can be profitably offered the boys of these classes. Some modification in the mathematics course of the 8th grade to meet the changing conditions in high school courses is desirable in the near future. The number of Sunderland pupils attending various high schools is creditable to the local school and to community standards. There are at the close of the year, 35 pupils in Amherst high school, 1 in Greenfield high school, and 5 in Deerfield high school.

I desire to emphasize the suggestion made in the report of the Supervisor of Physical Education in regard to extending the usefulness of our playgrounds. One of my predecessors informs me that Sunderland was the first town in this section to provide apparatus for its school playgrounds. The swings, to which he referred, are still on the Town Hall grounds, and little has been added since. These swings are ill-adapted to the use of the smal-

ler children now using them and should be replaced with lighter apparatus. The ample space around the new building offers a splendid opportunity for the development of a school and village playground. The equipment of these grounds and some steps toward the addition of trees and shrubbery to the site is an enterprise which should appeal to our civic pride.

Sunderland presents an excellent illustration of the advantage of a consolidated school system. The gathering together of the children of all the town into one social family is a policy typically American in spirit and full of promise for future generations. The merits of this system require no argument from me but I cannot withhold comment upon the wisdom of its application in our community. The schools should be prepared to take full advantage of its possibilities. No one familiar with school conditions in the Valley can fail to be impressed with the excellent record of attendance made in the Sunderland schools. This task has not been accomplished without constant effort upon the part of the teachers and efficient work upon the part of the attendance officer. Regular attendance has become a habit with the most of the pupils of the school but there are still some parents who do not cooperate very willingly.

Respectfully submitted,

MARVIN E. JANES, Superintendent.

# Report of Supervisor of Music

---

Mr. Marvin E. Janes  
Superintendent of Schools.

Dear Sir:

I herewith submit to you my annual report of the Sunderland Public Schools.

In music there are found three distinct elements; namely, *rhythm*, *melody*, and *harmony*. I will give a brief outline of the treatment of these elements in public school music.

The most universal element is rhythm; it is found to some extent in all human beings and it is the work of the music supervisor to stimulate and draw it out. The victrola is one of our most helpful means, for in the lower grades we have the toy orchestras accompanied by the victrola; in the upper grades we have the study of the orchestra and its music.

Melody is more complex. Before there is an appreciation of melody for the child there must be ability to read music. From the second grade to the eighth grade we aim for facility in reading music.

Harmony, as a technical study, comes in the High School curriculum. It is a study of sounds and their relation to one another.

The aim of every music supervisor is to create, in the individual, a love of music and this is accomplished by the study of these three elements.

I take this opportunity to thank you and your corps of teachers for the hearty cooperation extended to me during the year.

Respectfully submitted,

ISABEL W. BULLIS,

Supervisor of Music.

## Report of Supervisor of Art

---

Mr. Marvin E. Janes  
Superintendent of Schools

Dear Sir:

I herewith submit my second annual report as Supervisor of Art in the Sunderland Schools.

In order to correlate to the best advantage the work in the art department with the academic work in the schools, it has seemed advisable to divide the work into monthly periods covering the following subjects:

September, October and November—Nature and object drawing made directly from specimens, to develop keener observation of the things about us, to emphasize size, shape and the necessity of careful handling of the crayon, and to teach the appreciation of color and texture as found in nature.

December—Construction work, to train the hand for future practical needs by drill and practice with ruler, scissors and paste.

January—Color, to give a fundamental understanding of the theory of color, and its various hues, values, and combinations, that it may find practical use in the home and dress as well as in the school, and that it may give a new sense of feeling and appreciation for beauty.

February—Design and decoration, to stimulate good taste, and to cultivate good selective judgment in any phase of the subject.

March, April, May—Representation and holiday work, to enable the child to express his thoughts more accurately. This

subject and poster work are correlated to great advantage with history and geography.

Picture study is stressed in order that the child may know and appreciate some of the old paintings and sculptures, and to incite an interest in the lives of the artists.

Much credit should be given the teachers of Sunderland for the progress the children have made in this field. Their kindly interest and cooperation has made possible many difficult subjects.

In closing, I wish to thank you, Mr. Janes, for your interest and help.

Respectfully submitted,

SHIELA K. McCARTHY,

Supervisor of Art.

# Report of Supervisor of Physical Training

---

Mr. Marvin E. Janes  
Superintendent of Schools

Dear Sir:

I herewith submit my third annual report as Supervisor of Physical Education in the Sunderland Public Schools.

The health and normal physical development of the children of Sunderland are matters of vital concern to every good citizen. The interest in Physical Education is growing every year, and we find that the public is studying more and more just what physical *education* means. Many people believe making athletes out of our boys and girls covers the meaning. However, they are mistaken for that is really the minor aspect. The aims of physical education are briefly stated, fourfold:

1. To improve the general health.
2. To improve the posture.
3. To cultivate a spirit of fairness, as well as a love of sport.
4. To improve the carriage and develop grace of bodily movement.

## *Grammar Grades*

In the first two grades, the work given is of the informal type, formal work not starting until the third grade and contin-

uing through the eighth, planned of course according to the grade. We reach the child here through his imagination so he unconsciously exercises his body in his play consisting of story plays, rhythmic work, later in the year little dances and games.

When we come to the third grade, our program is changed to marching, gymnastic exercises, posture work, games, and appropriate dances, all members of the formal type. Each teacher has a "Physical Education Outline" for her grade giving the lessons for the year in the order that they should be used.

To create interest among the pupils a "Physical Training Honors" banner is awarded at the end of every month. During the month at the end of every lesson the classes are marked on the following:

1. Ability to perform review lessons	1 point
2. Attention given to instructor	1 point
3. Posture of class during lesson	2 points
4. Spirit shown in games	1 point
<hr/>	
Total	5 points

In each school-room, we have two teams known as the Purple and the Gold. Each team has elected its own captain and plays its games under the captain's guidance. Points are awarded the winning team, each room contributing to the total. I find that the enthusiasm has been greatly increased by this plan.

### *Posture*

Posture is one of the most important things taught in our school curriculum. Exercises are given each class. These are not designed to make athletes, as attention is fixed simply on proper alignment of the body, as a whole, to insure correct position of the vital organs housed in the body. This assists in the proper physiological functioning of the body.

The grade teachers are of great service in this work, as they have the children under their supervision for five hours daily and can encourage them to use their bodies correctly while reading, writing, reciting and playing.

Posture exercises are given each month to the classes to practice, then every two months a test is given and the mark kept on a Posture Chart which hangs in each room.

### *Playground*

This is work of great importance and I am glad to say that the teachers cooperate with my efforts to have the children play instead of hanging around the building. The winter season is always a hard season to accomplish results in this line. If, however, the playground were made into a skating rink for the winter months, I am sure both the townspeople and the children would benefit by it. This would make our playground utilized to the fullest extent the year around. Considering the equipment, the Sunderland pupils manage very well.

Supervised playgrounds are of course ideal and pupil leadership is something that we hope will become possible, with the teacher acting merely as the supervisor.

It has been helpful and encouraging to have the splendid cooperation of the teachers, and I wish to thank all who have contributed to advancing physical education in the schools.

Respectfully submitted,

MARJORIE E. BENT,

Supervisor of Physical Education.

# Report of Supervisor of Home Economics

---

Mr. Marvin E. Janes  
Superintendent of Schools

Dear Sir:

I herewith submit to you my second annual report as teacher of Home Economics in Sunderland.

This year there are sixty-two pupils, taking the work in this course, eight of whom are boys.

I come to Sunderland once every week, on Friday, and my time is divided as follows:

9.00-10.15	7th grade girls
10.30-12.00	8th grade girls
1.00- 2.15	8th grade boys
2.15- 3.00	6th grade girls

From the opening of school in September, until January, the time has been devoted to cooking in all classes except the sixth grade.

Cooking includes the study of the principles of nutrition and the methods of cooking simple foods necessary for the healthful development of the body, as well as meal planning and preparation, table-service and the methods of house-keeping.

A course in sewing is being given to the sixth-grade girls,

as in the past, extending throughout the whole school year. The girls have learned the use of some fundamental stitches by making a holder and needle-case. The work for the last half of the year includes such projects as white aprons, a part of the cooking uniform, and underwear. This year, since there are two sixth grades, instruction is given to each class every other week, instead of every week as in the past.

During the last half of the year the seventh and eighth grade girls will have sewing. Their first project will be a set of underwear consisting of two or three pieces, and after that, simple dresses.

The boys will continue their study of cookery until June.

Respectfully submitted,

ELSIE J. PFERSICK.

## Report of School Nurse

---

Mr. Marvin E. Janes, Superintendent of Schools,  
South Deerfield, Massachusetts.

My dear Mr. Janes:

As one looks back over the days gone by, there are three achievements marking progress, which stand out from the general routine of school nursing service.

Sunderland now takes its place among other progressive towns with the placing of scales in the school by the School Committee. This, in itself, may seem a small thing and yet the results from increased interest in better health both among the children and adults cannot be measured, since it is an interest which is bound to grow from year to year.

The second achievement has been the securing of more attention to the care of the children's eyes. More children each year are receiving expert examination for eye troubles and suitable treatment.

The third one should give us all cause for joy, because it concerns the health of all our school children. It is the keener search for better health teaching, which is noted in every room in the school. More children are practicing health habits each year. Two banners were won in the Modern Health Crusade and many children received the badges for faithful performance of health habits over a twelve week period.

Credit for the progress made, belongs, not only to the whole school personnel but to everyone who has contributed to bring it about.

The usual routine measures were carried on. Following the school physician's examination of the children, fifty-eight children were referred to their family physicians for proper treatment and thirty were referred to their family dentists.

Vaccination, chest examination and tonsil clinics were held during the year. Five children were given three weeks each at the Greenfield Health Camp, because of their failure to make good gains in weight and strength during the school year. This care was paid for by the funds raised in the Christmas Seal Sale which the Franklin County Public Health Association conducts each year.

I wish that each person in Sunderland could know how much I appreciate the cooperation given me by the Superintendent, School Committee, teachers, janitor, children and parents. It is a joy to serve you all.

Respectfully yours,

ELSIE F. SMITH, R. N.,

School Nurse.

# **Report of an Audit of the Accounts of the Town of Sunderland**

**For the Period from January 1, 1926  
to September 9, 1927**

*Made in Accordance with the Provisions of  
Chapter 44, of the General Laws*

---

To the Board of Selectmen,  
Mr. Philip F. Whitmore, Chairman,  
Sunderland, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Sunderland for the period from January 1, 1926 to September 9, 1927, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

TNW/AMH

Mr. Theodore N. Waddell,  
 Director of Accounts,  
 Department of Corporations and Taxation,  
 State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Sunderland for the period from January 1, 1926 to September 9, 1927, and submit the following report thereon:—

The financial transactions of the town as recorded on the books of the several departments were examined and verified.

The books and accounts of the treasurer were examined and checked in detail. The recorded receipts were checked with the records in the several departments collecting money for the town and with the other sources from which money was received by the town treasurer. The payments were checked to the orders of the selectmen authorizing the disbursement of town funds and with original bills paid by the treasurer for the library and cemetery departments. The cash book was footed throughout for the period of the audit and the bank balance was reconciled with a statement furnished by the bank.

It was found that bills of the library and cemetery departments have been paid without the approval of the selectmen, in which connection attention is called to Section 52, Chapter 41, General Laws, which reads, in parts, as follows: . . . . .The auditor or officer having similar duties in cities, and the selectmen in towns, shall approve the payment of all bills or pay rolls of all departments before they are paid by the treasurer, and may disallow and refuse to approve for payment, in whole or in part, any claim as fraudulent, unlawful or excessive; and in that case the auditor or officer having similar duties, or the selectmen, shall file with the city or town treasurer a written statement of the reasons for the refusal; and the treasurer shall not pay any claim or bill so disallowed. . . . .

The appropriations were listed from the town clerk's record of town meetings and a comparison was made with the aggre-

gate amount expended against the several appropriations. The accounts were analyzed and a balance sheet was prepared showing the financial condition of the town on September 9, 1927. From the balance sheet it will be seen that the town is in an excellent financial condition.

There were overdrafts in the library, cemetery, and town hall departments. These will be reduced by trust fund income and by donations to be received, but in order to take care of the balances of the overdrafts a transfer should be authorized from the reserve fund.

The accounts of the tax collector were examined and verified. The commitments for the levies of 1925 and 1926, as well as of 1927 poll taxes, were added and compared with the assessors' warrants. The interest collections were listed and verified, and tax collections were compared with payments to the treasurer, and the abatements were verified by a comparison with the assessors' records of abatements allowed. There are no outstanding accounts except one 1927 poll tax, clearly indicating that the collector has been very prompt in the collection of the taxes committed to him.

The receipts for sporting and for dog licenses issued by the town clerk were compared with the stubs of licenses granted. The payments to the state and county treasurers, respectively, were verified, as was also the cash on hand.

The surety bonds of the treasurer and the collector were examined and found to be in proper form. The town clerk, however, is not bonded as required by Section 13, Chapter 41, General Laws.

The records of licenses issued by the selectmen were checked with the payments to the town treasurer. The accounts of the sealer of weights and measures and of the highway and poor departments were also examined and verified.

The securities and savings deposits representing the investments of the library and cemetery trust funds were personally examined, the income was proved, and the payments were verified.

Appended to this report are tables showing a reconciliation of the treasurer's cash, summaries of the tax accounts, and the

trust fund transactions, as well as a balance sheet showing the financial condition of the town on September 9, 1927.

For the courtesies extended by the town officials during the course of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDWARD H. FENTON,

Chief Examiner.

---

COMMONWEALTH OF MASSACHUSETTS

FRANKLIN, SS.

To either of the Constables of the Town of Sunderland, in  
the County of Franklin, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet at the Town Hall in said Town, on Monday, February the fourth, at 10 o'clock in the forenoon, then and there to act on the following articles:—

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To choose all necessary town officers for the ensuing year.

ART. 3. To hear the annual report of the town officers and special committees and act thereon.

ART. 4. To appropriate such sums of money as may be necessary to defray town charges for the ensuing year, or to pay town debts and interest.

ART. 5. To determine the manner of repairing highways, townways, and bridges, and appropriate any money therefor.

ART. 6. To see if the town will appropriate money for the transportation of scholars to the schools in town or high schools out of town.

ART. 7. To fix the time when taxes shall be paid and pass any vote in regard to interest.

ART. 8. To see if the town will authorize the treasurer to borrow money in anticipation of revenue, with the approval of the selectmen, for the use of the town, and give notes of the town therefor.

ART. 9. To appropriate money for salaries of the several town officers.

ART. 10. To see if the town will appropriate a sum of money for the support of the Public Library.

ART. 11. To see if the town will appropriate a sum of money for the opening of the town drains or take any action in regard to them.

ART. 12. To see if the town will appropriate a sum of money for the medical inspection of schools.

ART. 13. To see if the town will appropriate a sum of money to furnish street lights for the ensuing year.

ART. 14. To see if the town will appropriate \$150.00 to be paid to the Trustees for County Aid to Agriculture in accordance with provisions of Chapter 128, Section 45, General Laws and for the purpose of demonstration work under the direction of the agent of instruction of the trustees on land owned by the town or any residents thereof, or pass any vote or votes in relation thereto.

ART. 15. To see if the town will choose a director in accordance with the provisions of Chapter 128, Section 45, General Laws, at this meeting, to serve for the term of one year.

ART. 16. To see if the town will appropriate a sum of money for the observance of Decoration Day.

ART. 17. To see if the town will appropriate the sum of \$300.00 for a school nurse in accordance with Chapter 357, Acts of 1921, or appropriate any sum in connection therewith.

ART. 18. To see if the town will take any action in regard to appropriating a sum of money for gypsy moth work.

ART. 19. To see what action the town will take in regard to snow removal, and see if the town will appropriate any money for the same.

ART. 20. To see if the town will appropriate a sum of money for bonding the town officers.

ART. 21. To see if the town will accept the provisions of Section 26-29, Chapter 81, General Laws, in regard to the manner of caring for the roads.

ART. 22. To see if the town will appropriate a sum of money for repairing the roads under the provisions of Chapter 90, of the General Laws.

ART. 23. To see if the town will appropriate a sum of money to purchase a truck or any other road equipment.

ART. 24. To see if the town will appropriate a sum of money for the construction of a swimming pool and skating rink or take any action in regard thereto.

And you are directed to serve this Warrant by posting up attested copies thereof at the Post Office seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands this 25th day of January in the  
year of our Lord one thousand nine hundred and twenty-nine.

## Road Report

---

January 10, 1929

To the Selectmen:—

The following I submit as the road report for 1928:

Following a very mild winter we started February 15 drawing gravel to different places where there appeared need for it, to make mud holes passable or keep water from running in the road. By March 1 we started drilling and getting out base stone for the section of Chapter 90 road in North Sunderland. From the middle of the month on we looked after the drainage of the different roads as the frost went out and during the latter half of the month we drew more gravel on to the places that seemed to require it.

On March 21 we did the first scraping, starting where there was stone base covered with gravel. From then to the middle of April the different roads were scraped and shaped up as fast as the frost went out. By scraping the gravel roads on days when the ground was frozen in the morning and thawed out by noon, the surface could be put into very fine condition. If, at that time, we had had a roller to compact the gravel, it is my opinion the surface could have been held in better condition throughout the summer. At any rate, it is something that might be tried out at small expense and at possible great benefit.

It required only two days' work to do the necessary patching of the macadam roads in the spring. This was done the last of April. On April 30 we started construction under Chapter 90 (that is, with state, county and town money) on the North Sunderland road. The \$4,000 that was available for this work was spent on two sections, one on the north side of Highland Point to connect two pieces that had been built in previous years and one north of the watering tank extending towards Chard's pond. This work was done in May, June and the first part of July whenever local labor was available. All this Chapter 90 work was stone base with gravel surface except a short section near the northerly side of C. F. Clark's land, where the stone base was omitted.

After this money was spent we built a section of this same kind of road on the Upper Montague road extending northerly from where the work was stopped two years before. This work was done during July and August. At about this time also we drew a considerable amount of gravel and spread a thin layer of it over the road from Walter Williams' to Highland Point. This was done in an attempt to overcome the roughness of this type of road. Of course the intention in building a stone base-gravel surface road is to put on a macadam surface eventually, in the meantime extending it as far as possible with the money available, in order to do away with the impassable roads in the spring. After spring mud is passed, or roads are improved so that there is no spring mud, we are apt to forget how bad conditions were before and begin to kick about the next worse condition which in this case is the roughness of a road surfaced with gravel over stone base. It is possible that more people would be pleased if the \$4,000 that is available each year was spent in putting on a macadam surface northerly from the present macadam road, instead of following the present policy. In my opinion, however, it would be better to continue as we are going until we get to the town line which at the present rate will take not over three years. Then we could start over again with the macadam surface and do a considerable distance each year with this same amount of money.

Cutting brush all over town took considerable time in Aug-

ust and the first part of September; then when it was done we had orders to cart it away or burn it, which took about as much more time.

By the last of September help was again available and so we built a piece of stone base-gravel top road on Meadow Street near John Benjamin's home.

The macadam roads were again patched during October and the first part of November. This time it took about three times as long as it did in the spring. No bituminous treatment was given the macadam this year and, considering that no application was made the year before, the surface was in fine condition the past season. Nearly all the patching, outside the short section south of R. B. Brown's home, was along the edge of the macadam. This was made necessary by the travelling due to more and faster travel than formerly. The roads are too narrow for two vehicles to meet in safety without getting out to the edge of the macadam. The last application of bituminous material, although lasting longer than any previously applied, has made the surface almost too slippery for horses to use. It might be possible to use a coarser sand or fine gravel as a filler the next time the roads are treated and do away with the extreme slipperiness for horses.

During the first part of November another section of stone base-gravel-top road was constructed on Meadow Street near the home of H. A. Hubbard. With the worst mud hole (near Benjamin's) on the upper end of this road done away with, the money available for construction on Meadow street should all be spent on the south end hereafter until it is finished as far as the home of T. M. Walsh.

Also in November Hungarian Avenue in front of the home of Mrs. Tomacki was straightened by making a considerable fill on the west side and getting travel back once more within the limits of the highway. About a foot of gravel was then put on the fill. The present culvert at this point was extended beyond the new fill but for lack of money was not extended as far as it should have been. This should be attended to soon.

At various times during the season as we had the time we worked at removing the sand knoll on the Plain Road opposite

land of Peter Mokrzecky, using it to make a fill where the road is low a short distance east and then covering it with gravel. More can still be done however, along this same line to further improve the road at this place. The ditch that should drain this piece of road runs through private property and is allowed to become clogged, thus holding the water back in the road, and on other private property. A town drain might well be considered in place of the present ditch with the prospect of less cost to the town than under the present conditions and a chance for a better road.

More kicks have been registered this year than for any year in a long time. Most of them are occasioned by what I would call very minor causes. In most cases it was a matter of fixing up some place in front of the complainant's dwelling, extending a construction job a few feet further, or filling a mud hole with gravel at the height of the mud season when it was impossible to get a load of gravel to the place. There have been several threats to sue the town by people, who because they paid taxes to support all the activities of the town, demanded that their pet spot in the road should be fixed even if the remainder of the taxpayers got no road for their money.

I call your attention to these examples of "kicks" not because I cannot bear up under them nor because the man who succeeds me cannot live under the burden of them, but more to call your attention as well as that of all the citizens of the town to what is demanded in the way of roads at the present time. When we all had only horses, we put up with the inconvenience of spring mud or mud at other times even if it was disagreeable. Then when the auto first came along it was put away during the winter and left there until after mud time. A little later when the auto was left out all winter, very muddy roads were avoided for a while in the spring, and not much complaining was done except as to the amount it cost to get pulled out if we happened to land in a mud hole. But now auto owners expect to keep their cars and trucks on the road the year around and "holler" if they cannot. Last spring we posted the principal roads, warning against the mud but even then people would run to the end of the passable part of the road and jump right off into

a mud hole and there they would usually stay. During the remainder of the year, although there are perhaps no mud holes, many people will complain because they have to pass over muddy roads and get their nice cars all be-spattered.

Now most of us know the remedy for this condition. Plenty of money will keep the roads cleared of snow in the winter and will construct roads that are neither dusty in dry weather nor muddy in wet weather nor impassable in spring. Also most of us know that we cannot furnish enough money to do all this in one year. Therefore we all try to get for ourselves whatever is available in the way of road money. If we live on a dirt road we want it gravelled; if we live on a gravel road we want it macadamized; and if it has been macadamized, it is too slippery or something else is the trouble with it. And the other roads in town that we don't use, can go "hang."

Information as to dangerous places in the roads is very welcome to a road superintendent but requests for the expenditure of much money for the benefit of a very few doesn't get much consideration as a general rule. It might be well for the townspeople to know just how the money appropriated under Chapter 81 is allotted to the different roads. When the state furnishes one-half the money, as it does under this chapter, it insists that the expenditure shall be made under the direction of its engineers. Before the road work starts in the spring, one or more of its engineers meets with the selectmen, and the road superintendent, and takes up in detail the needs of every section of the town and of each road separately. After due consideration of these needs the total appropriation is split up into allotments for the different roads. It is then up to the superintendent to keep approximately within the allotments and to do the work satisfactory to the state engineer. If any unforeseen occasion should arise whereby more money should be needed on a particular road, the engineer always consents to its use there, which means of course, that some other road gets less than was originally allotted to it, for the appropriation cannot be overdrawn.

I would respectfully suggest some changes in the road maintenance for the coming year, if money is appropriated under Chapter 81. The town should buy a medium-sized, dual-

rear-wheeled truck on pneumatic tires, or make an arrangement with some one who has one, for its use about three days per week. It will have to buy a road machine in any case for the old one is about used up. With this type of truck and a rather light road machine of up-to-date make, the roads could be gone over at frequent intervals and kept in as good shape as possible for each type of road. For the first scraping in the spring, on all but the improved roads, that have been built in late years, a truck would not handle a scraper and it would be necessary to get a tractor for a very few days. Besides the truck driver, about two other men should be available, one to handle the road scraper and one to open up ditches and to clean up behind the scraper. When there was no scraping that could be done economically this outfit could be used for whatever work could be done to the best advantage. I estimate that this would take an average of three days a week during the whole season. For the expenditure of the bulk of the money a gang should be organized when local help is available. It has been my policy to do the bulk of the road work at such times as local help was unemployed and thus help to keep up employment and hold the money in town. About 90 per cent of all the money appropriated last February for roads was spent for labor, or materials purchased in town, and it was distributed in such amounts that much of it found its way back into the town treasury in the form of taxes. I think that this policy should be continued. If we had enough money available to maintain a fair-sized gang and a superintendent all the season it might then be more economical to change this policy.

This shows where the money went:

Name of Road	Amount spent
1. Bull Hill	\$221 16
2. Hubbard's Hill	73 34
3. Plain	400 02
4. Pound	549 81
5. River	48 75

6. Hungarian Avenue	\$ 416 57
7. Gribko Cross	3 53
8. Back	187 35
9. Upper Montague	2142 31
10. North Sunderland	5025 05
11. Gunn Cross	8 60
12. Whitmore Cross	18 30
13. Leverett-Montague	214 39
14. Reservation	45 98
15. Middle Lane	76 24
16. Cemetery	0 00
17. Meadow Street	1013 12
18. Brown Cross	72 32
19. Tomoles Cross	118 47
20. Kulessa Cross	5 16
21. Burek Cross	5 34
22. Plain Branch	13 88
23. North Mountain	67 11
24. Middle Mountain	36 65
25. South Mountain	24 25
26. Clark Mountain	0 00
27. Gunn Mountain	0 00
28. Cross Mountain	0 00
	<hr/>
	\$10786 70

The above amount includes \$4,000 spent on the North Sunderland road under Chapter 90.

This shows who received the money for labor:—

Name and Classification	Rate	Amount
Warner Bros., shovel	\$4.00	\$ 32 00
Warner Bros., truck	2.50	65 00
Warner Bros., tractor	2.25	514 11

### RECEIPTS

Balance in Treasury, Jan. 1, 1928	\$11969 77
Received from State Treasurer:	
Income from Mass. School Fund	\$1978 76
On account of Superintendent's salary	386 67
High School Tuition	2422 79
High School Transportation	1919 10
Division of Highways	5399 90
Mothers with dependent children	330 56
Corporation Tax, business	10 37
Corporation Tax, public service 1925	3 00
Corporation Tax, public service 1926	1 15
Corporation Tax, public service 1927	1 18
Corporation Tax, public service	500 01
National Bank Tax 1926	4 05
National Bank Tax	62 20
Trust Co., Tax	4 07
Income Tax 1928	8057 50
Income Tax 1927	210 00
Compensation of Inspectors of Animals	23 50
Reimbursement for loss of taxes	8 69
Division of State Forestry	47 77
Director of Standards, licenses	12 00
Town of Deerfield, bridge account	27 83

## Received from:

County of Franklin, bridge account	\$	76	53
Town of Whately, bridge account		6	96
Produce National Bank, Temporary Loans		20000	00
Produce National Bank, discount re- funded		30	34
Goodyear & Warner, auto sales license		10	00
Stewart P. Batchelder, sewer connec- tion		40	00
District Court of Franklin, fines		20	00
County of Franklin, highways		1000	00
Town of Montague, poor account		81	32
Town of Greenfield, poor account		135	46
Credit on lost checks		21	45
R. W. Graves Cons., rebate on 1926 bonds		75	00
Licenses		2	50
Todd's Store, refund		2	75
Goodyear Brothers, inspection of Slaughtering		88	68
Telephone toll charges, refunded		1	10
Sealer of Weights and Measures		50	25
R. B. Brown, collector		31081	98
R. B. Brown, collector, 1928 interest		67	51
R. B. Brown, ditch tax		138	31
Rent of playgrounds		60	00
			<hr/> \$86371 01.

Library appropriation	300 00
School House notes	3250 00

Paid Interest on School House notes	\$2047 50
State Tax	1785 00
Auditing Municipal Accounts	176 91
Repair of State Highways	397 10
Veterans' Exemption .	5 73
County Tax	3262 82
Helen Hoxie, envelopes	2 25
Produce National Bank, discount	404 21
Director of Accounts, certifying notes	4 00
Rent of Deposit Box	6 00
C. E. Parsons, court fees and expenses	46 00
	<hr/>
	\$77751 33
Balance in Treasury	8619 68
	<hr/>
	\$86371 01

A. W. HUBBARD, Treasurer

Having made a careful examination of the Treasurer's record of the cash received and disbursed during the past year, I believe the foregoing balance sheet to correctly set forth the financial condition of the Town of Sunderland as at December 31, 1928.

DAISY B. MONTAGUE, Auditor

January 17, 1929.

## Collector's Report

---

Town tax	\$24963 80
County tax	3262 82
State tax	1785 00
State Highway	397 10
Overlayings	375 47
State Audit	176 91
Polls (only)	154 00
Interest	67 51
Omitted assessment	5 19
	<hr/>
	\$31187 80
 Paid Town Treasurer	 \$31081 98
Interest	67 51
Abated taxes	38 31
	<hr/>
	\$31187 80

Respectfully submitted,

R. B. BROWN, Collector

I have examined the warrants issued to the Tax Collector by the Assessors, the abatements granted, and have verified his account by a comparison with the Treasurer's cash book and I believe the above statement to be correct.

DAISY B. MONTAGUE, Auditor

January 14, 1929.

## Town Clerk's Report

---

### BIRTHS IN 1928

Number of births reported, 29.

Number of males, 18.

Number of females, 11.

- |       |     |   |
|-------|-----|---|
| Jan.  | 16. | Olive Jean to Herbert and Helen Bixby.          |
| Feb.  | 12. | Ora Leslie, Jr., to Ora and Ethel Fisher.       |
| Mar.  | 11. | Blanche to Sylvester and Stazia Jackimowicz.    |
| April | 1.  | Edna May to Theoren and Ruth Warner.            |
|       | 9.  | Anna to John and Anna Palambas.                 |
|       | 29. | Veronica to John and Mary Korpeter.             |
| May   | 1.  | Louise May to Aleck and Rosie Ringshin.         |
|       | 5.  | John to Mack Corbett and Valeria Stepkinitz.    |
| June  | 30. | Walter, Jr., to Walter and Laura Rau.           |
| Aug.  | 15. | John Victor to Victor and Helen Petraitis       |
| Sept. | 1.  | Eliot Franklin to Henry and Maud Clark.         |
|       | 14. | Herman Joseph to Angelo and Jennie Correlli.    |
|       | 18. | Leonard Joseph to Joseph and Josephine Skalski. |
| Oct.  | 23. | Peter to Peter and Annie Perchak.               |
| Nov.  | 16. | Richard James to Lester and Ina Miller.         |
|       | 27. | Stillborn to Adam and Tekla Navshinski.         |
| Dec.  | 3.  | Barbara Jennie to John and Stasia Narashinski.  |
|       | 26. | Ann Hepburn to Robert and Violet Collins.       |
- 

### MARRIAGES IN 1928

- |       |     |  |
|-------|-----|--|
| Feb.  | 20. | John Narashinski and Stasia Swatkoski.   |
| April | 21. | Leo Edward Walsh and Alice Mary Forrest. |
|       | 23. | Stanley Bartos, Jr., and Helen Duda.     |
|       | 25. | Daniel D. Whitmore and Emma V. Rice.     |

- May 7. Alfred Kulikosky and Mary Novashinski.  
8. Peter Raffa and Stella Riska.  
21. Frank J. Grybko, Jr., and Helen Gritz.  
21. Tony Wysk and Bessie Korpeter.
- June 4. John Andrew Molitores and Alice Mary Tabacienski.  
4. Walter Rau and Laura Karpinski.  
28. Clifford Bradley Potter and Martha Josephine  
Belden.
- July 18. Arthur Lee Harris and Helen Ingram Clark.  
23. Stewart I. Childs and Ruth E. Rice.
- Aug. 6. Philip Martin Hubbard and Mary Matilda Mitton.  
28. John Dowhan and Katherine Tymkowicz.
- Sept. 9. Michael Kowalick and Mary Jackowski.
- Oct. 1. John Mitchell, Jr., and Anna C. Kowall.  
12. Guilford Montague and Isabel W. Bullis.  
12. Louis Horst and Gerda Norell.  
27. Charles M. Dodge and Dora M. Clark.  
29. Michael Farrack and Mary Helen Podworski.
- Nov. 12. John Bandalewicz and Elizabeth G. Bartos.  
29. Leo Gagnon and Anna Sophie Fensick.

## Cemetery Report

---

### RECEIPTS

Balance in Treasury, Jan. 1, 1928	\$ 27 88	
Interest on Trust Funds	404 61	
	<hr/>	\$432 49

### PAYMENTS

Sunderland Water Co.	\$ 6 00	
G. A. Childs, caretaker	345 64	
	<hr/>	\$351 64
Balance in Treasury	\$ 80 85	
	<hr/>	\$432 49

### TRUST FUNDS 1928

Westfield Savings Bank	\$1350 00	
Amherst Savings Bank	2657 66	
Franklin Savings Institution	2783 23	
Arkansas Mortgage 1930	1200 00	
	<hr/>	\$7990 89

I believe the foregoing statement sets forth correctly the financial condition of the Riverside Cemetery Association as at December 31, 1928. On December 28, 1928 I examined the Savings Bank books and security representing the investment of the trust funds, and consider the above record accurate.

DAISY B. MONTAGUE, Auditor

January 12, 1929.

## Report of Inspector of Animals and Slaughtering

---

As usual one general inspection of herds and barns was made during January and February, at which time:

74 Stables were visited  
357 Dairy stock inspected  
161 Swine  
1 Sheep

Four cows were condemned as tuberculous and killed.

At time of slaughtering we have inspected 2048 pork and 17 veal.

Thirteen carcasses of pork were found diseased and were condemned as unfit for food.

Respectfully submitted,

M. H. WILLIAMS, Inspector.

K. S. WILLIAMS, Assistant Inspector.

## **Forest Warden's Report**

---

Sunderland was fortunate in 1928, in having no expense for extinguishing forest fires. Seventeen permits were granted for camp or brush fires during the season.

Respectfully submitted,

A. C. WARNER, Forest Warden

---

## **Gypsy Moth**

---

524 egg clusters were found and destroyed, which is about 50 more than was found last year.

R. W. GRAVES, Superintendent

A. W. HUBBARD, Treas.

I believe the foregoing statement sets forth correctly the financial condition of the Sunderland Public Library as at December 31, 1928. On December 28, 1928 I examined the securities representing the investments of the several trust funds and consider the above record accurate.

DAISY B. MONTAGUE, Auditor

January 12, 1929.

## Report of the Librarian

---

The circulation of books for 1928 was 13,995.

One hundred and eighty-one books have been added during the year. This includes a gift of twenty-two volumes from the state.

Number of volumes on hand, 7478.

MARY B. POMEROY, Librarian

---

# Report of the Superintendent of Schools

---

TO THE SCHOOL COMMITTEE:—

## TOWN OF SUNDERLAND

I am pleased to submit to you my second report as Superintendent of Schools.

Looking forward offers more of zest and promise to most of us than glancing backward. The eagerness with which we make yesterday and today the stepping stones to tomorrow is characteristic of our age. Yet our foundations are deep in the past and our individual and social progress can only be measured by comparison of past and present. I am confident that the last year has been one of steady progress in our schools. Many favorable conditions have contributed to this desirable situation. In the first place we were able to retain the most of our teachers. Miss Williams and Miss Swann, both valued and experienced teachers, accepted more lucrative positions in other school systems. They were succeeded by Mrs. Ruth Wynne and Miss Church, both experienced teachers. All regretted Miss Bent's departure early in the Spring. In September Miss Barbara Allen, of Deerfield, a graduate of the Posse School of Physical Education, was appointed and is carrying on the work successfully.

The healthful and comfortable conditions under which pupils and teachers of Sunderland do their work has a very definite relation to the health and spirit of the schools. The absence of epidemics or other serious interruptions affecting the attendance

of the smaller children during the year made possible a high percentage of promotions in June and good standards of grading. The entering classes were slightly diminished and the threatened serious overcrowding in some rooms will not occur for sometime.

The system of reading begun last year has been extended into the 2nd grade where excellent results are already obvious. Detroit reading tests and other standardized scales have been used and have shown standard, and in many instances superior conditions.

In addition to the regular classroom activities, attention was given to Music Week and to Health Day. The active participation of our pupils in the Health Crusaders work is detailed in the report of the School Nurse. The Dental Clinic sponsored by the County Health Association and local committees, was an outstanding feature of the year and is properly mentioned in the Nurse's report. An exhibit of the Home Economic and the Art work of the schools was held in June. I hope that these special activities can be arranged this year to interest and attract a larger portion of patrons and friends of the schools.

A prominent educator has defined daily work of a properly conducted school as a sequence of purposeful activities. Teachers today are aiming to develop in the pupils an individual interest in the practical phase of school work, to emphasize its relation to his daily environment and to direct his impulses and attitudes to purposeful ends.

The improvement of the grounds about the new building and the extension of the use of the playground has been going on through the year. A skating place has been provided, additional equipment has been purchased, and other improvements planned. A hedge has been placed near the entrance and the border around the building gravelled. Through the cooperation of the Tree Warden a new grading to the street line is now possible. A moderate amount of repainting has been done within and outside the new building. This building is kept in excellent condition and only "wear and tear" must be accounted for.

Our Sunderland pupils in neighboring high schools, though somewhat reduced in numbers, continue to exhibit high standards of achievement and scholarship. A list of the names of those who graduated from high school courses last June may be found on the last page of the school report. A tabulation of the registration and attendance records shows but slight changes in registration and an even higher percentage of attendance than for the corresponding period last year.

I have yet to meet a resident of Sunderland who is uninterested in our schools and I have cause for much satisfaction in the many courtesies extended to the teachers and myself by the Committee, town officers and citizens.

Respectfully submitted,

MARVIN E. JANES,  
Superintendent of Schools

December 31, 1928.

## Report of Supervisor of Music

---

Mr. Marvin E. Janes,  
Superintendent of Schools

Dear Sir:—

I herewith submit to you my annual report as Supervisor of Music in the Sunderland Public Schools.

The course of study which I follow in the schools of this town is divided into two definite parts, namely, "Tune and Time."

Under "Tune" come the following subjects: Learning the scale, staff reading, finding "do," first and second steps in chromatics, two and three part singing, use of the five chromatic characters, bass clef study for boys.

While under the heading, "Time," are taught the seven different combinations of time, called time motions. In my schools, I have obtained much better results in time by omitting all stilted, memorized definitions for time. The only requirement is the ability to sing correctly, at sight, the different combinations. Compound time, I find, needs a great deal of emphasis in order to get correct rhythm, for most songs of the Slumber Song type are written, not with common time, but with compound time. The lower grades are still obtaining rhythmic work by means of their toy orchestras.

All through the year, music appreciation is considered, though at the beginning of the new year, one particular subject is studied. Since this year is the one hundredth anniversary of Franz Schubert's death, the upper grades are studying his life and are singing and listening to some of his best known music. (Incidentally, I might add that I am taking the Music Appreciation course offered by the Massachusetts University

Extension Service at Amherst in the desire to prove more of an inspiration to the children in this particular branch.

It had been hoped that the schools of this town might have access to a radio every Friday morning for thirty minutes, during the winter in order that the children might "listen in" at the Educational Hour of concerts and lectures conducted by the well-known conductor and composer, Walter Damrosch; these concerts are given especially for school children and the work is graded into four different classes, while a Teacher's Manual is sent upon request. Inasmuch as it was not possible to make the necessary arrangements for the schools to listen to the concerts I wish to say that it is well worth while for any adult to "tune in" at WBZ Friday mornings. Since this feature was not possible for this year it will be something to aspire to next year.

I wish to take this opportunity to thank you, Mr. Janes, for your interest and help; and as always, the cooperation of the Sunderland teachers has been most stimulating.

Respectfully submitted,

ISABEL B. MONTAGUE,  
Supervisor of Music

## Report of Supervisor of Art

---

Mr. Marvin E. Janes,  
Superintendent of Schools

Dear Sir:—

I herewith submit my third annual report as Supervisor of Art in the Sunderland Schools.

In this course we are following the fundamental principles of last year rather closely, devoting each month to some specific subject—design, color, object drawing, perspective, construction, or holiday work—always with the idea of correlating our work with the academic work of the grades. However, the standards have been raised and the problems to meet those standards have been made much more difficult.

Last June we held an exhibition in the Domestic Science Laboratory, which did much to stimulate and awaken the interest of both parents and pupils in our work. It showed not only progress made in this field, but real talent and ability among the pupils. We plan to make this exhibition an annual school affair.

Much credit is due the teachers of Sunderland for the progress made by the pupils in drawing. It has been a pleasure to work with their generous help and co-operation.

In closing I wish to thank you, Mr. Janes, for your many kindly suggestions.

Respectfully submitted,

SHIELA K. McCARTHY.

## Report of Supervisor of Physical Education

---

Mr. Marvin E. Janes,  
Superintendent of Schools

Dear Sir:—

I herewith submit my first annual report as Supervisor of Physical Education in the Sunderland Public Schools.

The Aim of Educational Gymnastics is to develop the body into a harmonious whole under the perfect control of the will and to counteract and correct tendencies to abnormal development.

In the first two grades, the work is mostly Story Plays where the pupils, through keen imagination, unconsciously exercise their bodies. With the third grade, formal exercises are started along with marching and games, and later, folk dancing.

As long as the weather permitted Gymnastic Classes were held out of doors, where the pupils had plenty of fresh air and entered into the games with a good spirit and the idea of playing together as a whole.

Each teacher has a Physical Education outline each week, which I go through thoroughly so that the teacher and the pupils know what to go through during the week. Progression is twofold, first, from exercise to exercise, and, second, from the movements of one lesson to those of another. We are working hard for pupil leadership.

In closing I wish to thank you for your assistance in promoting Physical Education in the Schools, and to thank the teachers for their splendid cooperation.

Respectfully submitted,

BARBARA ALLEN,  
Supervisor of Physical Education

# Report of Supervisor of Household Arts

---

Mr. Marvin E. Janes,  
Superintendent of Schools

Dear Sir:—

I herewith submit to you my third annual report as teacher of Home Economics in the Sunderland Schools.

This year there are sixty-three students taking the work in this course. This number includes girls from the sixth grade, seventh grade and eighth grade, and also ten boys from the eighth grade.

As in previous years, the work in the higher grades, during the first half of the year has been devoted to the study of foods, the periods of time for each class being from sixty to seventy-five minutes long.

In the beginners' class, namely, the sixth grade, a course in sewing is being given which will extend throughout the entire school year. The girls have learned the use of some fundamental stitches by making a holder and towel to be used next year in connection with their cooking lessons, and a bag in which to carry their sewing. At present, they are working on aprons which are a part of their cooking uniform, and those girls not needing the apron are making simple underwear. This last project is intended to give them the necessary experience with the sewing machine.

In the seventh grade, the girls started their study of cookery by preparing simple nourishing foods which would be practical to serve in their own homes. They also studied the principles of nutrition, meal planning and the methods of house-keeping.

The eighth grade girls resumed their study of cookery, started the previous year, preserving and canning, bringing their own products and jars from home. After the preserving came the study of the value of foods in the diet, care of food in the home, menu-making, table service and house-keeping duties.

Lessons for the boys in the eighth grade have been the same as those of the seventh grade girls. They will continue their study of foods until June.

During the last half of the year the seventh grade girls will apply their knowledge of sewing by making a set of underwear which will consist of three or more pieces.

The eighth grade girls will have as their first project in sewing a kimono, and after that, simple dresses.

To you, Mr. Janes, and all others who have offered helpful suggestions, I wish to extend my hearty thanks.

Respectfully submitted,

ELSIE J. PFERSICK.

## Report of School Nurse

---

Mr. M. E. Janes,  
Superintendent of Schools,  
Sunderland, Massachusetts

My dear Mr. Janes:—

Sunderland children, 184 in all, are, for the first time, free from dental defects. Credit for organizing and carrying on the dental clinic, is due to Mrs. H. C. Pomeroy, the Superintendent and School Committee and the women of the town, who so generously gave of their time to help at the clinic for several weeks.

Nineteen children are happier doing their school work, because they are able to see better with glasses than they could before. Thirty-nine children during the last few years have been given a chance for better health and scholarship, because they are rid of diseased tonsils. Fifteen of these were cared for at three clinics last year.

Nineteen children were examined at the Chest Clinic, where ten were given the tuberculin test. Three children were taken to the Westfield State Sanatorium for X-ray examination and found to be free from tuberculosis.

Again, the Franklin County Public Health Association, through its funds raised by the sale of the Christmas Seals, paid for the care of five children at the Greenfield Health Camp for three weeks, at a cost of Twenty Dollars per child.

Sunderland Schools have been banner winners in the Modern Health Crusade Tournaments several times. It was a foregone

conclusion that her teachers and pupils would eagerly enter the Health Contest, which required, first of all, participation in Crusade work and the formation of good health habits. Contestants were required to be free from physical defects, to have or to gain good posture and to be interested in healthy living. Pupils in the sixth, seventh and eighth grades were enrolled and how they did work! Blue ribbons were awarded to the healthiest boy and girl in each room, chosen by the teacher, nurse and doctor, who went to Greenfield for the final rigid physical examination. The contest which was county-wide, under the leadership of the Franklin County Public Health Association, sought to stimulate a greater interest in the beauty of health. Children came from nine of the county towns for the final examination. The healthiest girl and boy were chosen to be Queen of Health and Sir Galahad of Health. Sunderland's Blue Ribbon Children are Charlotte Darling, Julia Graves, Viola Olkowski, Arthur Bixby and Vernon Miller. Both boys were rated very high but Vernon Miller received the highest rating of any boy in the county and won the title of Sir Galahad of Health.

The contest was dramatically brought before the public at the Live Wire Fair in Greenfield, when the children were awarded the Blue Ribbons by Ex-Senator John W. Haigis, before the grandstand packed with people. Dressed in the Crusade Costume, the Blue Ribbon Children of the county, took part in the juvenile parade, Sir Galahad was resplendent in a red velvet knight's costume, standing beside his white pony on the float which was a bower of green. Sunderland was greatly honored by the healthiest boy in the county. For both truck and driver, we are indebted to Messrs. Goodyear and Warner.

Again, may I say, that it is a great pleasure to work with each and every one in Sunderland.

Respectfully submitted,

ELSIE F. SMITH, R. N., School Nurse

## COMMONWEALTH OF MASSACHUSETTS

FRANKLIN, SS.

To either of the Constables of the Town of Sunderland, in  
the County of Franklin, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet at the Town Hall in said Town, on Monday February the third, at 10 o'clock in the forenoon, then and there to act on the following articles —

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To choose all necessary town officers for the ensuing year.

ART. 3. To hear the annual report of the town officers and special committees and act thereon.

ART. 4. To appropriate such sums of money as may be necessary to defray town charges for the ensuing year, or to pay town debts and interest.

ART. 5. To determine the manner of repairing highways, townways and bridges, and appropriate any money therefor.

ART. 6. To see if the town will appropriate money for the transportation of scholars to the schools in town or high schools out of town.

ART. 7. To fix the time when taxes shall be paid and pass any vote in regard to interest.

ART. 8. To see if the town will authorize the treasurer to borrow money in anticipation of revenue, with the approval of the selectmen, for the use of the town, and give notes of the town therefor.

ART. 9. To appropriate money for salaries of the several town officers.

ART. 10. To see if the town will appropriate a sum of money for the support of the Public Library.

ART. 11. To see if the town will appropriate a sum of money for the opening of the town drains or take any action in regard to them.

ART. 12. To see if the town will appropriate a sum of money for the medical inspection of schools.

ART. 13. To see if the town will appropriate a sum of money to furnish street lights for the ensuing year.

ART. 14. To see if the town will appropriate \$150.00 to be paid to the Trustees for County Aid to Agriculture in accordance with provisions of Chapter 128, Section 45, General Laws and for the purpose of demonstration work under the direction of the agent of instruction of the trustees on land owned by the town or any residents thereof, or pass any vote or votes in relation thereto.

ART. 15. To see if the town will choose a director in accordance with the provisions of Chapter 128, Section 45, General Laws, at this meeting, to serve for the term of one year.

ART. 16. To see if the town will appropriate a sum of money for the observance of Decoration Day.

ART. 17. To see if the town will appropriate the sum of \$300.00 for a school nurse in accordance with Chapter 357, Acts of 1921, or appropriate any sum in connection therewith.

ART. 18. To see if the town will take any action in regard to appropriating a sum of money for gypsy moth work.

ART. 19. To see what action the town will take in regard to snow removal, and see if the town will appropriate any money for the same.

ART. 20. To see if the town will appropriate a sum of money for bonding the town officers.

ART. 21. To see if the town will accept the provisions of Section 26-29, Chapter 81, General Laws, in regard to the manner of caring for the roads.

ART. 22. To see if the town will appropriate a sum of money for repairing the roads under the provisions of Chapter 90, of the General Laws.

ART. 23. To see if the town will appropriate a sum of money to purchase a truck or any other road equipment.

ART. 24. To see if the town will appropriate a sum of money for the construction of a swimming pool and skating rink or take any action in regard thereto.

ART. 25. To see if the town will appropriate a sum of money for the construction or repair of sidewalks.

ART. 26. To see if the town will appropriate a sum of money to pay for the printing of the valuation lists.

ART. 27. To see if the town will appropriate a sum of money to pay for damages on property adjoining the ball grounds.

ART. 28. To see if the town will appropriate a sum of money to pay for giving pupils in the schools the Schick Test and treatment.

ART. 29. To see if the town will vote to authorize the sale of any part of the play grounds.

ART. 30. To see if the town will vote to purchase or take by eminent domain any land for play ground purposes, and appropriate any money therefor.

ART. 31. To see if the town will vote to adopt a by-law providing for the appointment, terms of office, and duties of a Finance Committee.

ART. 32. To see if the town will vote to allow the Town Hall to be used for basketball.

And you are directed to serve this Warrant by posting up attested copies thereof at the Post Office seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting, as aforesaid.

Given under our hands this 24th day of January, in the year of our Lord one thousand nine hundred and thirty.

P. F. WHITMORE,	}	Selectmen

F. W. DARLING,	

## Road Report

---

January 11, 1929

To the Selectmen:

A few points in connection with the 1929 road work that would seem worth mentioning are as follows:

1. Construction on the North Sunderland road, under Chapter 90, was carried ahead about 2,000 feet this past season, passing the bridge at Chard's Pond but without laying out much money there. The State engineers at Greenfield worked out a very satisfactory scheme to eliminate the re-construction of the bridge and although the road there is not too wide now, is much safer than before and will probably do until through traffic gets to using it heavily. One more year, with perhaps a little more money from the state, ought to complete the same type of road to the Montague line.

2. The application of tarine, covered with pea stone, on the macadam road through the meadow was started as an experiment to relieve the slipperiness for horses and completed after the trial had seemed to accomplish its intended purpose. The cost of this coating was heavy but will partly be repaid in a little longer life to the road surface. The expense in maintaining this road in 1930 should be small except for patching the edge of the macadam where increased traffic and speed is continually wearing it away. A penetration macadam with proper foundation would reduce the upkeep to a very small amount yearly but of course, would be quite an expense for construction.

3. In the construction work on the lower end of Meadow Street gravel was substituted for the usual stone base in order to

cheapen the cost and get more distance in one year for the amount of money allotted. For a road which will probably never be subjected to more than local travel this type should be very satisfactory. With the same amount of money spent on this kind of construction nearly all residents on this end of the road should be able to get out in the spring after one more year.

4. Filling in the depression in front of the home of R. B. Brown resulted from the relocation of Tomoles Cross Road, so-called, last year. While the amount of gravel drawn onto this road would not be enough to keep heavy traffic out of spring mud, it does help the residents on this road considerably and might well be continued the short remaining distance to the next and last house.

5. The purchase of a used scraper from the town of Amherst, which was too light for their heavy tractor, and replacing the worn parts, has given the town a scraper of very good make and heavy enough for our use. It is rigged at present for use behind a tractor but could be fitted for horse use.

6. The failure of the superintendent's scheme for having a light truck on the roads three days every week is the most noteworthy. Under the best conditions this truck would haul the road machine, but on the hills, in new gravel or on wet roads it simply would not do the work. A caterpillar tractor, now that horses are very hard to get when wanted, seems to be the best solution of the scraping problem. The truck being a failure for scraping, threw the superintendent's scheme out of joint. It might be economical for the town to own its tractor and its truck so that they might be available at just the time needed.

The table below indicates which section received the lion's share of the road money:

Name of Road	Amount spent
1. Bull Hill	\$ 116 95
2. Hubbard's Hill	7 30
3. Plain	373 79
4. Pound	2050 28
5. River	167 78

6.	Hungarian Avenue	\$ 488 87
7.	Gribko Cross	1 53
8.	Back	36 72
9.	Upper Montague	965 09
10.	North Sunderland	659 18
11.	Gunn Cross	34 06
12.	Whitmore Cross	7 73
13.	Leverett-Montague	126 18
14.	Reservation	17 92
15.	Middle Lane	117 13
16.	Cemetery	43 40
17.	Meadow Street	1157 49
18.	Brown Cross	18 94
19.	Tomoles Cross	124 25
20.	Kulessa Cross	188 49
21.	Burek Cross	18 85
22.	Plain Branch	3 70
23.	North Mountain	8 88
24.	Middle Mountain	8 87
25.	South Mountain	37 24
26.	Clark Mountain	23 80
27.	Gunn Mountain	00 00
		<hr/>
		\$6804 42

In addition to the above amount \$4,000 was spent on the North Sunderland road under Chapter 90.

This shows who received the money for labor:

Name and Classification	Rate	Amount
Warner Bros. and Goodwin, Inc., shovel	\$5.00	\$1147 50
Warner Bros. and Goodwin, Inc., Mack truck	3.00	210 00
Warner Bros. and Goodwin, Inc., Mack truck	2.50	1476 25
Warner Bros. and Goodwin, Inc., compressor	2.50	403 75

Warner Bros. and Goodwin, Inc., G. M. C.	\$1.75	\$412 12
Warner Bros. and Goodwin, Inc., Chevrolet	1.50	329 25
Warner Bros. and Goodwin, Inc., loader	1.00	40 00
Warner Bros., tractor	2.25	304 87
Warner Bros., Reo truck	1.75	455 00
Warner Bros., team	.80	106 00

CLARENCE F. CLARK, Treasurer.

I believe the foregoing statement sets forth correctly the financial condition of the Riverside Cemetery as at December 31, 1929.

DAISY B. MONTAGUE, Auditor.

January 13, 1930.

## **Report of Inspector of Animals and Slaughtering for 1929**

---

At the general inspection of herds and barns made in January:

65 Stables were visited  
359 Dairy Stock inspected  
151 Swine  
1 Sheep.

Five cows were condemned as tubercular.

At the time of slaughtering we have inspected 1782 pork and 1 beef.

Seven carcasses of pork were found tubercular and condemned as unfit for food.

Respectfully submitted,

M. H. WILLIAMS, Inspector.

K. S. WILLIAMS, Assistant Inspector.

Sunderland, January 15, 1930.

## Forest Warden's Report

---

1929 was the driest summer we ever remember. We had 3 fires start in some unknown way, but as we were notified at once, they were extinguished with very little time and expense, and no damage was done.

One fire set by a man with a permit early in the season to burn a brush pile, was poorly tended and a part of our town forest was burned over as a result.

Sunday, October 27, a fire started from some unknown cause and was burning into the woods, east of the back street. It was extinguished, before any damage was done, but for some reasons cost \$40 to extinguish. This was double what it would have been under normal conditions.

We have room on our hose cart for 100 feet more of hose. I recommend that the town buy this amount, as we have plenty of water and good pressure. I also, recommend that the town purchase 12 round point shovels.

We issued 13 fire permits and refused a great many more.

Respectfully submitted,

A. C. WARNER, Forest Warden.

---

## Gypsy Moth Report

---

490 egg clusters were found and destroyed. There are still about ten days' work to be done next spring to complete the work.

R. W. GRAVES, Superintendent.

I believe the foregoing statement sets forth correctly the financial condition of the Sunderland Public Library as at December 31, 1929.

DAISY B. MONTAGUE, Auditor.

January 13, 1930.

## Report of the Librarian

---

For 1929 the circulation of books was 13,382.

Two hundred and twenty-nine books have been added during the year.

Twenty-six volumes were given us by the state.

Three hundred and sixty volumes of second-hand books were purchased and placed on the shelves.

Respectfully submitted,

MARY B. POMEROY, Librarian.

### ADULT FICTION

Aldrich	Lantern in her hand
Arnim	Expiation
Asquith	Octavia
Bailey	Burning beauty
Bailey	Silver Slippers
Barton	When Boston barred the king
Beach	Son of the Gods
Beer	Road to Heaven
Biggers	Behind that curtain
Biggers	Black camel
Bindloss	Frontiersman
Birmingham	Major's candlesticks
Birney	Steel-dust

Bowen	Hotel
Bower	Rodeo
Brown	Father
Burton	Little yellow house
Burroughs	Tarzan—lost empire
Chapman	Happy-mountain
Chapman	Home place
Christie	Seven dials mystery
Colver	Dimmest dream
Crosby	Skippy
Curwood	Crippled lady of Peribonka
Darling	Break up
Dalton	One by one
Deeping	Old Pybus
Deeping	Roper's Row
Delafield	First love
De-la-Roche	White Oaks of Jalna
Emery	Honeymoon millions
Ertz	Galaxy
Fletcher	Cobweb castle
Fletcher	House in Tuesday market
Fletcher	Maid and her money
Galsworthy	Swan song
Gibbs	Humdrum house
Glasgow	They stooped to folly
Glaspell	Brook Evans
Glaspell	Fugitives return
Gluck	Last trap
Gregory	Mystery at Spanish Hacienda
Gregory	Redwood and gold
Grey	Fighting caravans
Hill	Blue ruin
Hill	Duskin
Hill	Prodigal girl
Hanez	Unknown lands
Jordan	Miss Nobody from nowhere
Kilbourne	Dot and Will stories
Kyne	Jim the conqueror

Kyne	Parson of Parramint
Lilly	Seven sisters
Lincoln	Blair's attic
Locke	Ancestor Jorico
Loring	Gay courage
Marsh	Under fire
Maxwell	Spinster of parish
McCutcheon	Merivales
Miller	Welcome home
Morrow	With malice toward none
Mulford	Me and Shorty
Nordhoff	Falcons of France
Norris	Foolish Virgin
Norris	Red silence
Norris	Storm house
Oman	Crouch back
Oppenheim	Natomi's vineyard
Oppenheim	Treasure house of Martin Hewes
Parrish	All kneeling
Parrish	Methodist faun
Pedler	Guarded halo
Pereyra	Land of golden scarabs
Perkins	Gold
Proffer	Strange disappearance of Mary Young
Raine	Fighting tenderfoot
Raine	Texas man
Rath	Sky is the limit
Rath	Once again

# Report of the Superintendent of Schools

---

## TO THE SCHOOL COMMITTEE OF SUNDERLAND:

It is my privilege to render to you my third annual report as Superintendent of Schools.

The past year has not been one of marked change but rather a period in which steady progress could be made and definite results attained. A slight reduction in school registration and a more uniform classification of pupils in somewhat smaller groups has made working conditions more satisfactory. This will help to overcome some of the undesirable effects of a situation in which it was necessary to group more than 40 children in most of the lower grade classes. For the first time in several years there is no congestion in the first and second grades. This condition opens up the possibility of organizing one of the first grade classes into a preparatory class, to which children of kindergarten age could be admitted. Distinct advantages can be claimed for such an arrangement should circumstances make it possible.

A moderate use of standardized tests has shown the rank of our pupils up to normal standards in regular school subjects and in numerous cases exceptional grades were exhibited. Modern tendencies in school administration favor the grading and promotion of pupils with increased emphasis upon individual traits of industry, effort, self-reliance, honesty and other social attitudes, assuming that these traits are reflected in the pupils' work and are an accurate criterion of actual ability and achievement. We must and do teach the "three R's" to every child and even

measure achievement by them. Yet, under modern conditions, other aims must be recognized. In teaching the social subjects, particularly, the later tendencies are toward the development of an attitude of responsiveness in the mind of the pupil and the proper direction of these attitudes toward himself and his fellows. In the words of a recent speaker "Responsiveness is the measure of Life." The well-controlled socialized recitations, the activities in art, music, domestic science, health, physical education, safety, and various other subjects are mediums employed by the teacher and the school to this end.

Health work has reached a stage in the Sunderland schools where the pupil holds himself personally responsible for high standards of individual and group hygiene. This is the result of the cooperative efforts of the pupils, the teachers and the school nurse in promoting vigorously the objectives of the Health Crusaders and other health activities.

The policy of extending our playground facilities has been continued by placing additional equipment on the Grammar school grounds. New swings have been purchased to replace the old ones at the Primary building. Some improvement should be made in the fencing in front of the Town Hall. The present substitute is neither a protection for the small children nor an ornament to that part of the Village Street.

There has been a gradual decrease in the number of Sunderland pupils attending high school. This is due, doubtless, to agricultural conditions in our Valley. Our high school students, however, continue to rank high among their classmates both in scholarship and other school activities. The recommendation contained in the recent report of the Legislative Committee on School Age and Attendance, if enacted by the General Court, would have some bearing on the question of high school attendance. This Committee recommends the extension of the compulsory school age from 14 to 15 years and the grade requirement from completion of the 6th grade to that of 7th grade. While these provisions concern chiefly the larger towns and cities it would also have a limited local effect. Nearly all pupils in our schools complete the 7th grade and but a slightly less number complete the 8th grade. The effect of the change of grade would,

therefore, be negligible. The extension of the age limit, however, would mean that a larger percentage of those completing the 8th grade would have to continue their education in the first year of a high school, or be provided for in a 9th grade in the grammar school. This latter plan is not inconsistent with suggestions previously made. I believe that there are pupils who would welcome another year of school but who do not desire to begin a high school course; that there are others temporarily or irregularly employed who would be better off in school than in their present situations. There is still another group who enter high school with little intent of remaining and soon "drop out." Should the proposed legislation pass the General Court, I believe that such an organization could be effected with educational profit to the pupils concerned and with financial profit to the Town. The entrance to high school directly from the 8th grade, as at present, would, of course, be in no way restricted by such an arrangement.

For the teachers and myself I wish to acknowledge our appreciation of the assistance and courtesy extended to us in our work by the School Committee, Town officials, the Library, and other organizations and individuals who have shown an active interest in our work.

Your attention is respectfully called to the various reports and statistics vitally related to our schools.

Respectfully submitted,

MARVIN E. JANES,  
Superintendent of Schools.

December 31, 1929.

## Report of Supervisor of Music

---

Mr. Marvin E. Janes  
Superintendent of Schools

Dear Sir:

I herewith submit my fourth annual report as Supervisor of Music in the Sunderland Public Schools.

Music in the Sunderland Schools is at present up to date, in fact, in one or two cases the classes are beyond the usual work set down in the yearly outline for this period.

In the first grades the rhythm bands have been started and the children are enjoying and profiting from this work.

In all the grades, from first to eighth, there have been special songs for special occasions obtained from supplementary material. I find these special songs are most often used for the holiday programs prepared by each room. This is, of course, in addition to the regular curriculum.

It is with great satisfaction that I have noted an increased amount of interest on the part of townspeople in the school radio project. Not only has this increased interest been apparent on the part of parents, but also on the parts of pupils and teachers. Walter Damrosch is again presenting his series of concerts known as the N. B. C. Music Appreciation Hour. "The American Musician" for October says, "Under the direction of Walter Damrosch the National Broadcasting Company began in November a three year schedule of broadcasting educational concerts for schools, colleges, and music clubs." I have listened and benefited by these programs and have carried some of the work of the series into the schoolroom and find it received with

much enthusiasm; this, of course, would be doubly interesting and helpful were the classes able to hear the concerts by means of a school radio.

"The Nutcracker Suite" has been presented and enjoyed by the different classes; both the story and the music have been studied, the latter by means of the victrola. During the Christmas season Christmas carols and their origins were studied.

Much credit is due to the teachers of Sunderland for the fine progress made this year in music and I take this opportunity to thank them and to thank you, Mr. Janes, for your kindly interest and cooperation in the field of music in the Sunderland Public Schools.

Respectfully submitted,

ISABEL B. MONTAGUE,  
Supervisor of Music.

# Report of the Supervisor of Drawing

---

Mr. Marvin E. Janes  
Superintendent of Schools

I herewith submit to you my fourth annual report as Supervisor of Drawing in the Sunderland schools.

Work has been carried on in much the same manner as in previous years. I visit the schools every other Friday. Outlines are presented the grade teacher each month, the work of the year being divided into monthly periods:

September—Nature work.

October, November and December—Holiday and construction problems, adapted to meet the needs of each grade.

January—Color.

February—Design, in which we set to practice our knowledge of color and make interesting and beautiful our work in design.

March, April and May—Lettering, representation, object and figure drawing. These are most valuable in that they increase the imagination, perfect the vision and make the pupil more sensitive to the beauty that exists about him.

The seventh and eighth grades have done some interesting and practical problems in water color, notebook covers, correlating literature and drawing, and Christmas gifts. Just now we are working on Health Posters, some of which will be on display in other towns.

In June we give our annual exhibition to which the parents are invited to view the work done by the children throughout the year.

In closing, I wish to thank the teachers of Sunderland for their hearty cooperation and help.

Respectfully submitted,

SHIELA K. McCARTHY,  
Supervisor of Drawing

## Report of Supervisor of Physical Training

---

Mr. Marvin E. Janes  
Superintendent of Schools

Dear Sir:

I hereby submit my second annual report as Supervisor of Physical Training in the Sunderland Public Schools.

The aims of Educational Gymnastics are: 1. To insure good health through the promotion of normal growth and organic development and to form, in the early life of a child, those habits which tend toward the conservation of health. 2. The development through games and athletic contests of those fundamental habits of character which have a direct or indirect effect upon one's associates. Such traits include obedience, self-sacrifice, patriotism, self-confidence, self-control, courage, co-operation and good sportsmanship. 3. To create in youth an intelligent and healthful interest in physical activity and exercise that will be sustained and continued in adult life.

Practically the same schedule is being followed as last year, except that we have chosen the "Red," and "Blue" teams in each room under pupil leadership. These teams are the same throughout the year, and enjoy the competition in games as well as in school work. Each grade is marked on the following points, and at the end of each month, the accredited points are added and the grade getting the highest total is awarded the "Gymnastic

Honor Banner." 1. Attention given to the directions. 2. Posture. 3. Ability to perform lesson. 4. Spirit shown in games.

I wish to thank the Superintendent and teachers for their hearty co-operation and help in promoting gymnastics in the schools.

Respectfully submitted,

BARBARA ALLEN,  
Supervisor of Physical Training.

# Report of Supervisor of Home Economics

---

Mr. Marvin E. Janes  
Superintendent of Schools

I herewith submit to you my fourth annual report as teacher of Home Economics in Sunderland.

There are seventy-six students taking the work in this course, twenty-three of whom are boys.

Due to an increase in the number of students in the higher grades it has been found necessary to increase the time one half day.

The time is now divided as follows:

Thursday P. M.

1:00-2:00 8th Grade Boys

2:00-3:00 8th Grade Boys

Friday A. M.

9:00-10:15 8th Grade Girls

10:30-12:00 7th Grade Girls

1:00-2:15 8th Grade Girls

2:15-3:00 6th Grade Girls

The year's work in each grade has been much the same as in previous years. The usual clothing projects were made in the sixth grade, including holder, towel, apron and cap to be used next year in the cooking class, and sewing bag and underwear.

During the first half of the year the time, in the seventh and eighth grades, has been devoted to the study of foods and cook-

ery. The aim, in this part of the course, has been to give a knowledge of food values and skill in preparation of foods, as well as to encourage the students to be a greater help in the home.

The last half of the year, will give the seventh and eighth grade girls an opportunity to further apply their knowledge of sewing gained last year, and to learn new stitches and their uses.

The first project will be a kimono, and later underwear and simple dresses will be made. Darning, mending and patching will be taught in each class.

The eighth grade boys will continue their study of cookery until June.

Respectfully submitted,

ELSIE J. PFERSICK,

Supervisor of Home Economics

## Report of School Nurse

---

Mr. M. E. Janes  
Superintendent of Schools  
Sunderland, Mass.

My dear Mr. Janes:

Great indeed is the faith of a child. One small girl went about telling her friends she was going to the Health Camp, for weeks before the decision was made that she might go. She was one of five to receive care and training which the camp gives in the art of healthy living.

Two children were examined and X-rayed at the Westfield State Sanatorium. Both of them were found to be free from childhood or pulmonary tuberculosis.

Three children were taken to an oculist and glasses secured.

Ten children, two from each of the upper five rooms were chosen to compete for the honor of being King and Queen of Health at the Live Wire Fair, in the Health Contest sponsored by the Franklin County Public Health Association. These children won Blue Ribbons for their excellent health, but none of them achieved the highest honors. Sunderland has every reason to be proud of her Blue Ribbon children. Through the generosity of Goodyear Brothers in loaning a truck, and the effective work in trimming done by Mrs. Mary Pomeroy and Mrs. Olive Hubbard, Sunderland's children were honored by having their own float representing Health, a pot of Gold at the Foot of the Rainbow in the Blue Ribbon Parade.

This year we hope to have more contestants from Sunderland, practicing health habits and winning Blue Ribbons.

One teacher entered the Teacher's Scholarship Contest, conducted by the Massachusetts Tuberculosis League, for the purpose of stimulating keener interest in and knowledge of health educational methods. A scholarship of \$100 was awarded to the winners, who by their health work in the schools, surpassed the rest. She withdrew just before the close of school when she found she would be unable to take the six weeks' summer course for which the scholarship was offered.

A keener interest and a very surprising amount of initiative in developing health educational projects has been shown by the teachers. That there is a steady increase in health teaching is reason for pride.

Homes, sixty-nine in all, were visited—sometimes to see a sick child, sometimes to urge the need of glasses, or the removal of tonsils, or vaccination, or a better diet, or to get permission for the child to go to camp.

One child was found to be very ill. No doctor had been called because the mother had not realized how very sick her child was. She readily consented to have a doctor called who said the child had pneumonia. That call was made just in the nick of time to save the youngster, for pneumonia is not a disease one may fool with. Reports are made to the teachers when children are visited, because of absence.

The usual routine activities have been carried on.

Because of the friendly cooperation of parents, superintendent, school committee, teachers and janitor, the days spent in the service of Sunderland's schools are most happy ones.

Respectfully submitted,

ELSIE F. SMITH, R. N.

# Registration and Attendance
